PROFILE

Motivated Software Engineering student with skills in full-stack and mobile development. Experienced in building real-world projects using JavaScript, React, Node.js, and Flutter. Seeking an internship to apply my skills and gain hands-on industry experience.

WORK EXPERIENCE

Freelance Web Developer

2022 - Present

Self Employed via Fiverr

- Delivered custom web and mobile solutions for clients using HTML, CSS, JavaScript, and Flutter
- Developed chatbots, business websites, and e-commerce interfaces tailored to client needs.
- Maintained strong client satisfaction through effective communication and ongoing support

PROJECT

StarEvents Pvt Ltd (ASP.NET Core MVC, C#, Razor View, Microsoft SQL Server)

- Built a full-stack web app using ASP.NET Core (.NET 8) and C# (MVC).
- Managed data using SQL Server and Entity Framework Core
- Implemented authentication & role-based access (ASP.NET Identity)
- Developed core features using CRUD operations and RESTful routing

HubShoe E-Commerce Website: (HTML, CSS, JavaScript, Node.js, Supabase)

- Developed a responsive shoe e-commerce website that allows users to browse products, view detailed information, add items to cart, and complete purchases through a user-friendly interface.
- Designed modern and responsive UI using HTML, CSS, and JavaScript
- Implemented product listing (with filtering (price, brand, category)
- Built admin panel for adding and managing products
- Ensured mobile-friendly and cross-browser compatibility

Renewable Energy Smart Home System: (Flutter, Node.js, Supabase, API)

- Developed a renewable energy-powered smart home system that integrates IoT devices for real-time energy monitoring and predictive analytics.
- Real-time energy usage tracking
- Smart device automation
- AI-based energy prediction

Personal Portfolio Website: (HTML, CSS, JavaScript, Supabase)

- Designed and developed a professional portfolio website to showcase projects, skills, and contact information.
- Responsive UI design
- Smooth animation
- Contact form integration

EShift - Vehicle and Driver Management System: C#.NET (Windows Forms), MySQL

- Developed a desktop-based vehicle and driver management system for a transportation company to efficiently manage bookings, vehicle allocation, and customer records.
- Designed and developed the application using C# with Windows Forms
- Integrated MySQL database for storing customer, driver, and vehicle data
- Implemented CRUD operations (Create, Read, Update, Delete)
- Developed booking management system with vehicle assignment logic
- Created driver and vehicle availability tracking module

SKILLS

Programming Languages: JavaScript, Python, Java, C#, Dart

Frontend Technologies: HTML, CSS, JavaScript, ReactJS, Flutter

Backend & Frameworks: ASP.NET Core, ASP.NET MVC, Node.js, Entity Framework Core

Databases: MySQL, MongoDB, Supabase, SQL Server

Soft Skills: Problem-Solving, Team Collaboration, Adaptability & Quick Learning, Time Management

Current Learning: Jenkins (CI/CD), Docker, Kubernetes, and AWS (Basic)

EDUCATION

BEng (Hons) in Software Engineering (Top-Up) London Metropolitan University, Expected 2026

- Completed Coursework in Software Development, Database System, Web Engineering, and Software Architecture.
- Developed multiple full-stack and mobile development projects as part of the curriculum

Higher National Diploma (HND) in Software Engineering - Esoft Metro Campus 2023 - 2025 Graduated

- Focused on programming, database management, application development, and software architecture

CERTIFICATIONS

- Full-Stack Development - NoviTech R&D Private Limited
- Flutter Development Course - Udemy
- C# OOP - Udemy
